

THE REMARKABLE 2010 DALLAS GATHERING

IN REVIEW

The 6th annual Dallas Gathering was a remarkable success. Around 120 of us gathered at Eddie Deen's for a remarkably good time. The food and atmosphere were remarkable. Many remarkable alumni signed up to participate in the Founding Legacy Partners campaign. It was a remarkable evening with many remarkable reunions and reflections on days gone by. The purpose of the Gatherings is to build relationships and improve the effectiveness of the Association in meeting needs. It was remarkably successful. Check the Founding Legacy Partners article on the Home page to see the status.

Several people need to be recognized for their remarkable involvement in making this event a success. Most notably was the Bostwick family. Lan did a remarkable job of contacting folks and inviting them to the event. Crystal, Lan & Joyce's daughter, took over a hundred remarkable pictures. These will be posted to the site soon. Ron Hancock provided CD's for all present. Cheree Gilliam brought the old annuals for our parusal. Britt Hammond did a remarkable job of setting things up for us and David Rattan provided remarkable leadership for our chapter. As usual, Michael Rogers challenged and encouraged us as the remarkable President of our Association.

It was great to see some first-timers at the Gathering. Among them were Joe Garcia, Mike Price, Charles Brandenburg, Mike Stack, John McCarty, Bill and Dan Price. Joni Stuart traveled the farthest, coming from Sacramento, CA, while Michael Rogers was a close (or would that be "far") second, coming from Ocala Florida.

A number of those gathering here will meet again next month in Houston for the first ever HOUSTON GATHERING. Make your plans and reservations now to be a part of, what will assuredly be a remarkable event.
